

## CS/IT 490 WD: Group Project Assignment 1

Assigned: Tuesday, 2013-08-20

Due: Wednesday, 2013-08-21 by 11:59 pm

Turn in via Blackboard

Come up with an idea for a website. It doesn't need to be perfect, but you should answer some of the following:

- What kind of website is it?
  - E-Commerce (Amazon, NewEgg)
  - Social Media (Facebook, Twitter)
  - Blog/News (CNN, Lifehacker)
  - Forums/User-driven (PhpBB, Reddit)
  - Service (Library book-lookup, RSS reader, Photography portfolio)
- Who is the audience?
  - e.x. A News blog for video games, A Social Media page for professional jugglers
- Any other

Your idea may or may not be used; on Thursday everyone will choose groups, so you might find someone who wants to work on something similar to you, or you will have to work on something slightly different.
